# History Meets The Modern Era

A traditional format, numerous examples of Filetti can still be found throughout the streets of Europe today.

Typified by its random, long and narrow appearance, this unique cut of flooring is experiencing a modern revival. Prepared exclusively in porphyry and quartz, Filetti is specifically intended for application across high wear settings. Considerable versatility delivers a further appeal for this accessible format as its linear configuration works well around contours and design obstacles.

The textured split face of each piece also means that slip resistance is sound, making this product suitable for both residential and commercial fit-outs.

## Filetti Explained

Linear by design and offered in various materials, Gather Co's Filetti collection is a durable format, intended for significant loads and sustained wear. The considerable size variation across each piece requires a wet bed installation method to be engaged.

# Meeting Expectations

## Product Variation

Variation has been carefully considered when producing our surface collections. Colour, tone, composition, and texture are all naturally occurring characteristics of stone and will always differ from piece to piece.

Variation may also result in significant inconsistencies when delivered product is compared to any samples presented. That said, variation is in no way considered a material defect. It's precisely what makes stone so uniquely beautiful.

Please be sure to seriously consider these inherent characteristics whenever assessing the suitability of any Gather Co surface.

HERO IMAGERY | STUDIO

All imagery is available for free via our website. In addition, individual samples of each variety can be automatically requested. Simply visit: [www.gatherco.com.au](http://www.gatherco.com.au)

COMPOSITION | MATERIAL | FORMAT | FINISH | RATING

It's important to note there can be significant variation in colour, texture and tone across each material. The following representations are intended as general indicators only. Gather Co has no control over the natural variation that occurs across blocks extricated from developing quarry sites. This unavoidable fact must be accounted for when specifying any variety within our surfaces collection.

**INSTALLATION | SEALERS | WATERPROOFING | ADHESIVES | WET BEDDING | GROUT**

Gather Co is an authorised reseller of both Aquamix and Laticrete products in Australia. We do not manufacture, import or extend warranties to their product. Quantities stated below are approximates only, intended to assist in the quantification of product for ordering. Actual requirements will vary depending on the substrate, site conditions and method of application. Should you require any further information, please contact the manufacturer directly:

**Aquamix:** 1300 278 264 / [info@aquamix.com.au](mailto:info@aquamix.com.au)  
**Laticrete:** 1800 331 012 / [info@laticrete.com.au](mailto:info@laticrete.com.au)

**SEALERS**

MANUFACTURER   AQUAMIX	MATERIAL	COVERAGE (Per a Litre)
<b>SEALERS CHOICE GOLD</b>	Granite	10-14m <sup>2</sup>
	Limestone	6-10m <sup>2</sup>
	Quartz	6-10m <sup>2</sup>
	Basalt	8-12m <sup>2</sup>
	Sandstone	6-10m <sup>2</sup>
	Slate	10-14m <sup>2</sup>
<b>PRO BLOCK</b> Based on the manufacturer recommenced 'Dip-Sealing' method.	Granite	10-14m <sup>2</sup>
	Limestone	6-10m <sup>2</sup>
	Quartz	6-10m <sup>2</sup>
	Basalt	8-12m <sup>2</sup>
	Sandstone	6-10m <sup>2</sup>
	Slate	10-14m <sup>2</sup>

**WATERPROOFING**

MANUFACTURER   LATICRETE	UNIT SIZE	COVERAGE (Per a Pail)
<b>HYDROBAN</b> Two coats required.	15L (Pail)	18m <sup>2</sup>
<b>LATIOPOXY</b> Only one combination coat of part A & part B is required.	10L (Pail x 2)	30m <sup>2</sup>

**SYNTHETIC ADHESIVES**

MANUFACTURER   AQUAMIX	UNIT SIZE	COVERAGE (Per a Bag)
<b>335 PREMIUM FLEXIBLE ADHESIVE</b> Based on a 6x6 square notched trowel.	20kg (Bag)	7-8m <sup>2</sup>
<b>335 RAPID PREMIUM FLEXIBLE ADHESIVE</b> Based on a 6x6 square notched trowel.	20kg (Bag)	7-8m <sup>2</sup>
<b>254 PLATINUM</b> Based on a 6x6 square notched trowel.	20kg (Bag)	7.5-8.5m <sup>2</sup>
<b>MVIS VENEER MORTAR</b> Based on a 9x6 square notched trowel.	20kg (Bag)	6.2-7.5m <sup>2</sup>

WET BED ADHESION METHOD

SLURRY COMPOSITION	PARTS
<b>BLENDED COARS WASHED SAND</b> As per Australian Standards.	3
<b>GREY PORTLAND CEMENT</b> Type GP cement.	1
<b>CLEAN WATER</b> Additional water may be added to achieve desired consistency.	1

**NOTE:** An appropriate bonding agent such as Laticrete Everbond may be used to further improve adhesion, strength and workability.

GROUT

MANUFACTURER   LATICRETE	UNIT SIZE	COVERAGE (Per a Bag)
<b>PERMCOLOR GROUT</b> Coverage is dependant on the grout joint opening.	10kg (Bag)	Variable
